Education

The University of Adelaide — **Australia**
Bachelor of Computer Science, GPA: 6.5/7.0 — *2022 – 2024*

Experience

Global Technology Integrator Ltd. — **Hong Kong**
System Engineer — *2021*
I spearheaded the automation of tasks by writing a series of BAT scripts, allowing parallelization and reduced human resources needed. Though this was not included in my job scope, my actions were greatly appreciated by my superiors as we had a staff shortage.

Projects

MATLAB Minigames — **Adelaide**
Multiple minigames within MATLAB including minesweeper and blackjack — *2022*

Pokemon battles — **Adelaide**
C++, Make, LaTeX — *2022*
My team and I created a text-based, turn-based, player vs. computer Pokemon battle game. The player can choose from a selection of Pokemon and battle against a computer-controlled opponent.

Community involvement

Clubs

The Computer Science Club at The University of Adelaide — **Australia**
Committee Member — *Starting 2023*

The Cooler CS Club — **Australia**
Vice President — *2022 –*
As the VP, I am always there to help my fellow committee members and members of the club with anything they need. I also participate in active conversation to create a welcoming environment for all.

Miscellaneous

The University of Adelaide — **Australia**
Open Day Volunteer — *2022*
