Timothy Choi

tinnam.choi@gmail.com • tinnamchoi.github.io • tinnamchoi • tinnamchoi

Education

Technical University of Munich — **Munich**
Exchange — *2024*

The University of Adelaide — **Australia**
Bachelor of Mathematical and Computer Sciences, GPA: 6.33/7.0 — *2022 – 2025*

- Major in Distributed Systems and Networking
- Relevant coursework: Algorithm Design & Data Structures, Distributed Systems, Parallel & Distributed Computing, SWE Project

Experience

Altacomm Technologies Pty. Ltd. — **Australia**
Software Engineer Intern — *2024 Jan – 2024 Mar*

- Polishing up the company landing page by increasing the responsiveness and adding animations
- Creating a press release page

Global Technology Integrator Ltd. — **Hong Kong**
Network / System Engineer — *2021 Aug – 2021 Nov*

- Spearheading the automation and parallelization of our tasks
- Helping resolve our staff shortage by reducing the manpower and time required by ~200%
- Mentoring new staff, helping them understand the technology

Projects

Block Model Compression Algorithm (`tinnamchoi.github.io/projects/bsoc`) — **Australia**
C++, Algorithm Design, OOP, Git, Agile — *2023 Aug – 2023 Oct*

- Implementing octrees to compress 3D data in $O(\log N)$ time
- Employing agile methodologies for a group of 7
- Enforcing good Git practices such as using conventional commits

Binary Search on Color (`tinnamchoi.github.io/projects/bsoc`) — **Australia**
Algorithm Design, JavaScript, HTML, CSS, Web Development — *2023 Mar – 2023 Nov*

- Using the binary search algorithm to find the color that is closest to the user's desired color
- An attempt to combat indecisiveness when it comes to choosing colors

Malcolm bot (`in-progress, private`) — **Australia**
API, SQLite, Python — *2023 Nov – Present*

- Access the LeetCode, Codeforces and CLIST API to conveniently fetch corresponding information
- Store database of past solved problems per user to generate graphs and statistics

Volunteering

Ravi's Study Program — **Australia**
Community Mentor — *2022 Nov – Present*

- Providing advice regarding data structures and algorithms, especially in relation to competitive programming
- Hosting semi-weekly mock interview sessions

Adelaide Rover Team — **Australia**
Software Developer — *2023 Jul – Present*

- Employing best practices for seamless coordination and optimal outcomes.
- Consolidate constants for streamlined management and easy access.

UNIHACK — **Australia**
Organizer — *2023 Apr – Present*

- Assisting in the organization of the largest hackathon in Australia

Skills & Achievements

Languages

Proficient: C++ — **Intermediate / Beginner**: Bash, C, CSS, HTML, JS, LaTeX, MATLAB, Python

Human: English (fluent), Cantonese (native), Mandarin (advanced), German (beginner)

Prizes

Subject prize: Information and Communication Technology 2021 — *Achiever of the best results amongst peers*

Scholarships

University of Adelaide: 30% Global Citizens Scholarship — *Best possible scholarship for international students*
